Experience

SIDE (Formerly knows as **PTW**) (July 2022 - Jan 2026)
Senior < Test Engineer < Trainee

Started my career as a compliance game tester for SONY, later worked on multiple titles related to the genres like action-adventure, 3D platformer, simulation/building games in various environments.

- Performed and documented offline compliance checks for over 100 applications on PS4 and PS5.
- Created over 400+ test cases covering all aspects of functionality and executed them according.
- Performed PC guidelines & executed basic compliance testcase (TRC/XR).
- Reported 1000+ functionality bugs with design doc. (including PC guidelines and compliance issues).
- Performed Functionality, Regression, Smoke, Sanity, Ad-hoc and Re-testing. Worked on different platforms like PC, Gen9 consoles (PS5/XSX/XSS), Gen8 consoles (PS4/XB1).
- Assigned tasks to juniors based on their bug-finding skills and mentored them until task completion, ensuring quality and efficiency.
- Reviewing bugs and attachments on daily basis.
- Focusing and updating the status of P0, P1, P2, P3 issues regularly.
- Having a history of prioritizing and reporting bugs based on various stages of the game.
- Performed all types of checks for various PC specific testing.
- Clearing doubts and sharing knowledge about the game for new joiners.
- Handled a team of 24 members on Gen 8 platforms.
- Completed the assigned task within the deadline period.
- Assisted team lead in creating the DSR(Daily status Report) on a Regular basis.
- Formulated documents providing documents to clients with necessary and valuable feedback.

Education

Sadhguru Sainath international School
SSLC 8 CGPA (2008-2015)

Narayana PU College
HSC 80% (2015 - 2017)

New Horizon CollegeOf Engineering
BE 8 CGPA (2017 - 2021)

Skills

Manual Testing
Game testing
Software development life cycle (SDLC)
Software testing life cycle (STLC)
Bug tracking/Database (Jira/Testrail)
Computer Literacy
Test suite creation and execution
Team management
Task management
Good Communication
Adaptability
Problem-Solving
Ability to work with minimum Guidance

Tools

Jira / Testrail
Microsoft Teams, Excel, Word & Ppt
Github and Hugging face
Davinci Resolve / Canva / Affinity (Editing)
Comfi UI (Generative Ai)
Selenium using java & N8n (Automation)

Projects

Jacket
- Action-adventure game with immersive gameplay.
- Performed functionality testing for PC, Xbox and PS.
- Performed compliance testing on PS4/PS5.

NYX
- A vibrant 3D platformer with multiplayer co-op.
- Performed functionality testing on PC/PS.
- Assigned tasks and maintained Database.

Clove
- A Base-Building & turn based card game.
- Assigned tasks and Maintained database.
- Performed func-testing & requirements on PC.

Philotes
- A 3D platformer game with multiplayer co-op.
- Performed func-testing on PC (Steam/Winstore)
